

# Foundation Technology Roadmap

DECEMBER 2020

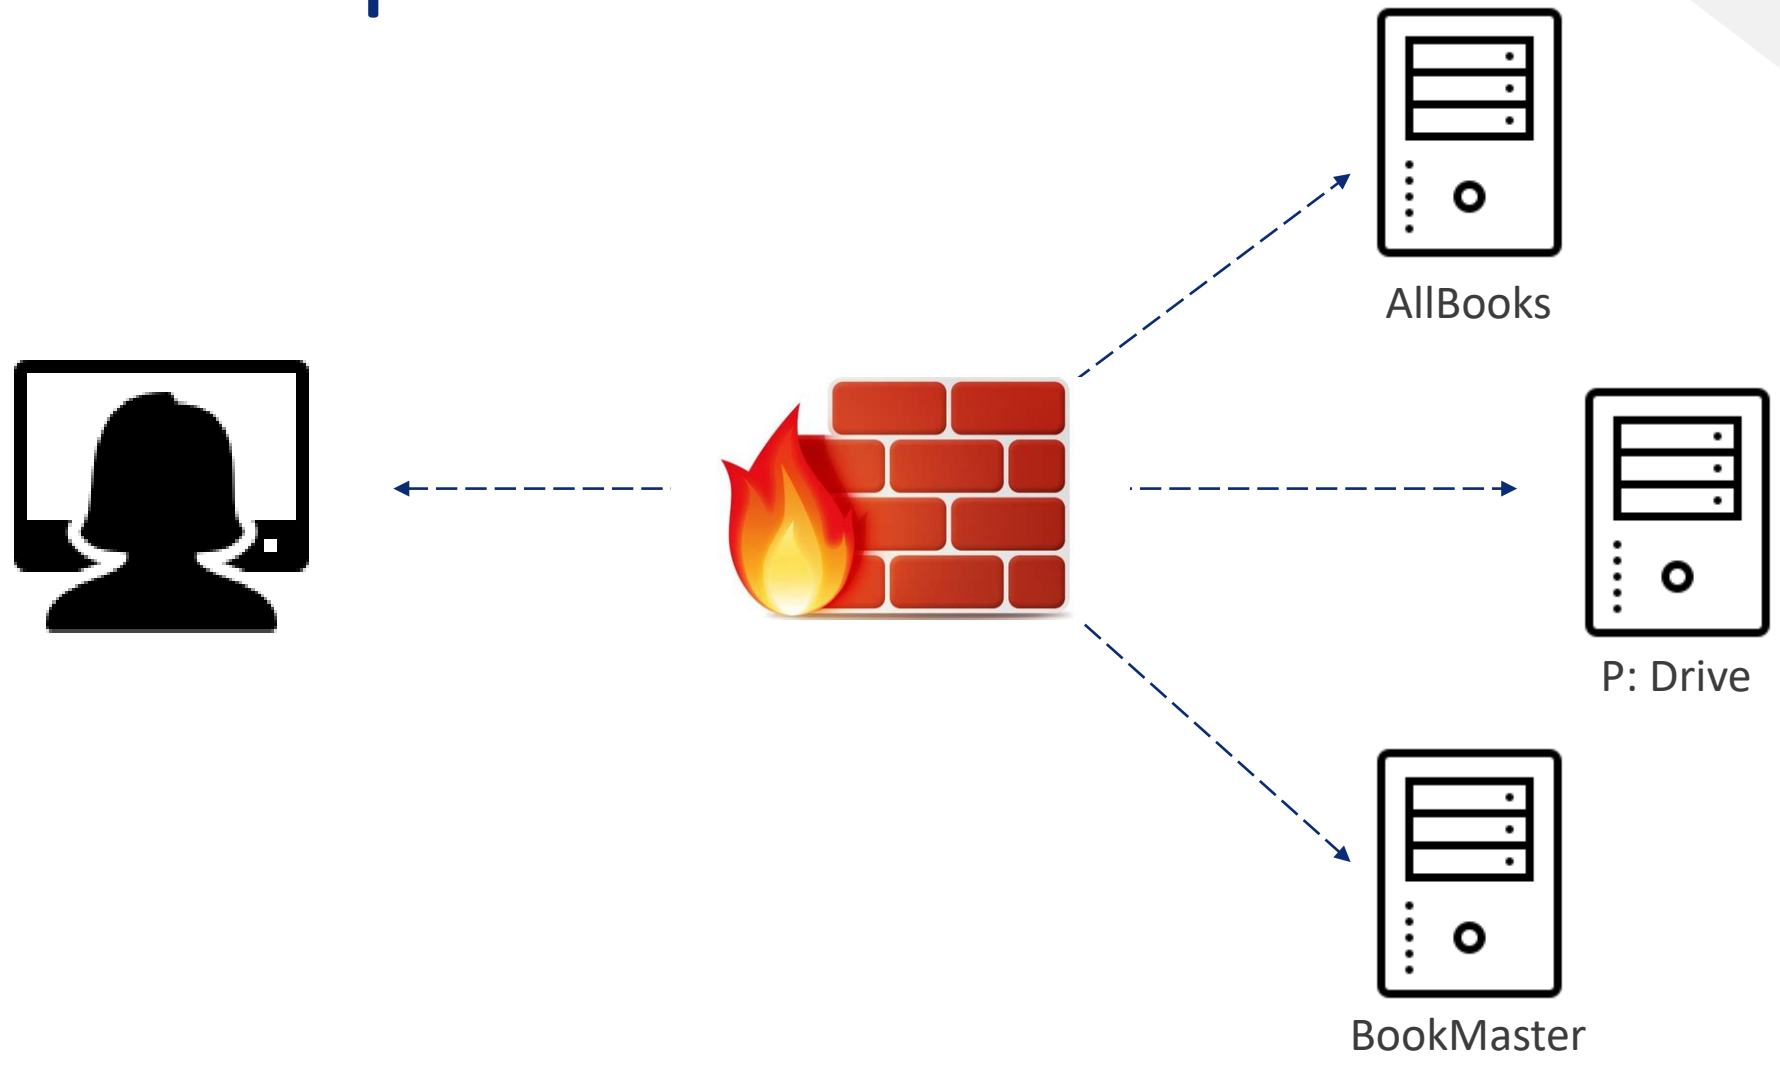

JOHNS HOPKINS  
UNIVERSITY PRESS

# Foundation vs. Business Technologies

- Foundation Technologies
  - Firewall and Security
  - VPN and Remote Desktop
  - PCs and Macs
  - Office Tools
  - Collaboration and Meeting Tools
  - File Sharing and FTP

# Firewall Explained

# Vision for Foundation

“CONSISTENT AND MODERN”

## What this Means

- One recommended tool for each need
- Everyone on the same, modern version
- Core technologies “just work”

## Benefits to You

- Clarity for you on which tool to use
- You’ll receive better training and support
- We can then focus on helping you with how you do your business

Themes: Strengthen Financial Sustainability & Align with the University

# Example: Office365

## OneDrive

My Files  
U: Drive

*Me*

## SharePoint

Shared Files  
P: S: Drives  
Intranet
